

## Awakening To Remembering: A Journey of Consciousness

Translating the Energies of They as WE, Lisa Transcendence Brown brings forth a writing of how all are here to awaken from the sleep of the forgotten world. As more continue to remember, realities as one once knew them shall cease to exist. This book speaks on how all souls have separated, of the process to re-integrate as one unified body of light (LightBody), and how all can come to participate in their own REMEMBERING. This book is meant to be simple and assist one on their own journey. You are asked to absorb the writings into your own energy as the expanded consciousness that you will soon become. This book speaks directly to the soul. It transmits in frequency, may cause one to sleep, and the actual words may not be remembered, yet are totally understood and absorbed within. The more one utilizes the frequency transmissions, the more they will further activate. (This is a re-edited, updated format of the previous April 2013 version. Formatting and only a few words were corrected. All content is basically the same as the original, version 1 published.)
