

Eleanor Roosevelt: A Comprehensive Bibliography (Bibliographies and Indexes in American History)

This annotated bibliography of the vast collection of works by and about Eleanor Roosevelt, Americas incomparable First Lady and global human rights leader, is the most comprehensive yet made available. The first part of the book is arranged chronologically with chapters on different types of her writings--guides to archival materials and bibliographies, books, chapters, introductions, and forewords in books; periodical articles; newspaper columns and important articles, addresses and remarks, and reviews of her writings. The second part deals with all types of works about her and is arranged alphabetically by author into topical chapters. These chapters feature different periods and aspects of her life--biographies, her emergence as a public figure, her life as First Lady of the United States, her role as a human rights leader in the United Nations, her work as an international social reformer, her last years, her death, and assessments thereafter. The chapters cover books, chapters in books, dissertations and theses, periodical articles, writings for young readers, fiction, songs, poetry, films, recordings, and computer software. This unique guide to over 3780 sources, with author and subject indexes and chronology, is designed for collections of all kinds and for use by students, researchers, and anyone interested in this remarkable First Lady and social reformer at a time when the role is again controversial.
