

Manual of Online Search Strategies: Humanities and Social Sciences

The third volume of a three-book updated edition covering the whole range of Internet, CD-ROM and dial-up online services, this text focuses on the humanities and social sciences. Across the three volumes, experts from the UK and US describe in detail how to identify and exploit specialist bibliographic and non-bibliographic databases, the best search methods and delivery modes, and the relative merits of different services and online hosts in their different disciplines.
