

It is my endeavour to let the readers worldwide know about the great spiritual souls who have taken birth in India and have tried to take us to the next level of evolution! Sant Kabir or Saint Kabir, also known as the mystic poet of the 15th century is one of the most revered saints in India. Although he belonged to the Shudra caste (considered as lower class) and made a living as a weaver, he dared to challenge highly placed Hindu pundits as well as Muslim Imams at that point of time when the majority of the common mass was highly oppressed and illiterate! But as it is said – the true spiritual light is ever effulgent & cannot be hidden for long, both Hindus and Muslims gave in to his spiritual charm and accepted him as an evolved spiritual soul! His writings influenced Hinduism's Bhakti movement and his verses are found in Sikhism's scripture Shri Adi Guru Granth Sahib. It is said that Holy Guru Granth Sahib contains over 500 verses by Sant Kabir. In this e-book, I have tried to elaborate on the meaning of the couplets and have tried to add in such examples so that the reader of the current generation can relate himself to Sant Kabir's spiritual wisdom!
