

INSTAT: International Statistics Sources: Subject Guide to Sources of International Comparative Statistics

INSTAT offers unprecedented access to a vast array of statistical data-sources on economics, business and social sciences topics. Designed to facilitate efficient searches, INSTAT is arranged A-Z by Main Subject Heading. The areas covered include: agriculture, employment, energy, environment, finance, health, manufacturing, population and wages. Other features include: a large format with tabular display of information to permit quick evaluation of subjects and sources; unit of measurement, frequency of issue and territorial coverage given for each source listed; a separate full listing of all sources cited with publication details; a full listing of all abbreviations and acronyms used; a full Subject Index of main subject headings and all associated topics.
