

Sentence Patterns for Inquiry and Confirmation in English (Q&A)

Sentence Patterns for Inquiry and Confirmation (Q&A): In languages, there are standard formats for requesting information and giving a response. Fortunately, English is no exception to this, and a relatively small number of sentence patterns accounts for the majority of natural exchanges of information. The patterns given in this book are clearly understood and expected by native-speakers of English, but also included are examples of the unusual variations you may get in a natural exchange. There are no exercises offered in the text, only the patterns for the specific nature of information being exchanged.
