

Journey From Grief: Life Transformation after Loss

Journey from Grief is Andi Fraleys first book and is an insightful portrayal of a major life challenge we all will experience eventually. One morning while on holiday, the shocking and unexpected loss of her fiance forever changed her life. This point in time marked the beginning of her story and the day her struggle with grief began. His death sent her entire physical, mental, and emotional constructs of life into a tumultuous rollercoaster of bewilderment and disbelief. Culminating with severe vertigo and symptoms of post-traumatic stress disorder, she considered all options, including suicide, as an alternative to living the rest of her life, forever in grief. In these pages, she discusses the sensitive issues embedded in death, loss, and grief, and the energy and fear these issues hold over us. She takes us through the trials and tribulations of her personal grieving process, so we may learn ways to heal, rather than become a victim of lifes circumstances. It is her wish to share her experience and provide support to others who are making their own journeys from grief. She offers deeply personal insight to help understand what you, your family member, or your friend may be struggling with or keeping locked inside during grief and major life struggle. No one needs to suffer alone or resist a life transformation unwittingly. If you are suffering from a devastating loss of a loved one, a career, financial downfall, or even facing retirement, Journey from Grief will be your companion in healing to encourage and promote discussion with your innermost fears and thoughts. With stillness and insight, everyone may find light within the darkest days and love that lasts forever.
