

Medical Physiology for Undergraduate Students

Medical Physiology for Undergraduate Students presents a complete and balanced exposition of the text highlighting essential and relevant aspects of human physiology in a lucid style with a student friendly language. The text has been organized into twelve sections and each section has been subdivided into various chapters. The text has been arranged in such a way that it provides step-by-step explanation complemented by numerous tables and abundant illustrations. Complete and up-to-date text with recent advances Illustrated by more than 1000 clear line diagrams Complemented with numerous tables and flowcharts for quick comprehension Text and figures in an attractive four colour format A balanced amalgamation of pure and applied text Highlights applied aspects of physiology in separate boxes Systematic organization of text to facilitate easy review
