

The entries cover all parts of speech (noun, verb, adverb or adjective usage) as well as use in modern slang, pop culture, social sciences (linguistics, history, geography, economics, sociology, political science), business, computer science, literature, law, medicine, psychology, mathematics, chemistry, physics, biology and other physical sciences. This 'data dump' results in many unexpected examples for possibilities, since the editorial decision to include or exclude terms is purely a linguistic process. The resulting entries are used under license or with permission, used under 'fair use' conditions, used in agreement with the original authors, or are in the public domain. Proceeds from this book are used to expand the content and coverage of Websters Online Dictionary (www.websters-online-dictionary.org).

Cooling Up: The interconnected public sphere and the science of climate denial, Walking Through Walls: A Memoir, Politics and Ambiguity (Rhetoric of the Human Sciences), THE RHETORIC OF SCIENCE A STUDY OF SCIENTIFIC IDEAS AND IMAGERY IN 18THC ENGLISH POETRY, G.H.O.S.T., This Moment: How to Live Fully and Freely in the Present Moment, The Leaders Guide: 15 Essential Skills (PSI Successful Business Library),
