

Termite Alert! What Every Homeowner Needs to Know

Termite Alert! What Every Homeowner Needs to Know The title says it all. Every Homeowner who lives in a warm climate needs an overview of these destructive insects. This 32 page booklet is packed with enough information to not only arm yourself from termites, but even from unscrupulous pest control companies. You'll discover how to identify termites and how to help protect your home from the damage they can cause. You may even learn to appreciate termites, as long as they're not eating away the core of your home.
