

The Still, Soft Voice ~ seeking Core and finding Soul.

Dr. Clifford Brickman's new book reveals the connection with what he calls the inner core. The Inner Core is a reality which lives within each of us. It's the inner essence of the individual - a positive inner voice. According to Dr. Cliff, the inner core is untouched by pathos or pathology. Dr. Cliff Brickman shares with his readers the culmination of a discovery initially made in 1989. The Still, Soft Voice takes the reader on an unexpected journey into the first 24 individuals' experiences with finding their inner essences. By vicariously traveling with these people on their most intimate excursions, you will get a glimpse into their revelations & realize that you, too, may get more in touch with your own inner essence. As a result, life's problems will naturally and gradually become easier to resolve. ***

. . . SOOTHING THE HEART ~ CALMING THE MIND ~ RESTORING THE SOUL. A doctor and 24 pioneers discover an olden inner voice full of wisdom & calm. It responds to all their questions asked. The remarkable findings challenge current notions about who we are. Twenty-four inquiries reach the core of equanimity & magnificent awareness. This revitalizes their lives and ours. In a world of illusions, many people will appear to be half-awake or half-asleep amidst a barrage of social pressure. Some will be distracted or diverted, hurt, confused, sabotaging, anxious or depressed. Others will vehemently deny an existence of their own guidance system and yours ~ the Inner Core. Unknowingly many wear blinders. They go through life in a bland & busy upside-down trance. Distorted reflections over several generations are prerequisite ingredients for personal pathos and intensified angst. Hope might be obscured ~ however it can not be obliterated. Dwelling in the midst of each person is a sacred Presence. A fine sensibility is integrated--thought with feeling, strength with equanimity. Its calming.. comforting, and a guide for progression or actualization. If asked, it can help one to resolve his or her blocks to good, better and best health.

. . . Discover this breakthrough in understanding and knowledge. This positive inner voice can help you with an effective path for development & personal empowerment.
